Value Added Reseller of:

- LaserFiche by Compulink
- Pixel Translations
- ScanVue
- Kofax
- Panasonic
- Bowe Bell Howell
- Ricoh
- Fujitsu
- Xerox/Visioneer
- EyeCom

Medical Record Scanning Pricing

BOLT Document Management rates for scanning documents start as low as 3.2 cents per image. However, this raw scan rate does not include variables such as set-up, document type, pre-scan prep, grouping, image processing, post-scan reassembly, indexing, volume, publishing, and transportation. These variables (some or all) are a factor in every project and add to the total price. The fact is that it is difficult to accurately estimate the cost of a project without first hand examination of the records to be scanned.

In most cases our fees for medical record scanning range from 4.8 cents to 9.5 cents per image inclusive of all operations and services. X-rays, film slides, and roll film can range from 15 to 45 cents per image. It is important to note that these price ranges have been provided for rough estimating only and do not represent an actual quote or proposal.

BOLT Document Management is a professional document scanning service with high standards for everything we do. We guarantee that there will always be a competitor somewhere that will do your project for less. We also guarantee that we will never lower the standards or jeopardize quality and accuracy of our work to beat prices from sub-standard competition.

BOLT establishes fair and competitive prices based on our actual costs of operation. While we will not let price competition dictate our level of excellence, it is not unusual to hear that our pricing is actually lower than that of competitors offering lower levels of quality and service.

Please feel free to contact us regarding an estimate for your project. If necessary we will schedule a visit to your site and/or provide a scan evaluation for a reasonably accurate estimate. We think you will agree that when quality and service are factored in, nobody beats the value of BOLT Document Management.

Thank you.
